

# System Update 2021

## *Update your Game*

It is the future. Humanity is spread across the solar system but is held in the iron grip of colossal megacorporations. Corps control every aspect of your daily life and seek to redefine life itself with android labor. Their ubiquitous Network contains endless oceans of information, the Corps' greatest strength... and their singular weakness.

In this asymmetric card game, play as Runners, diverse hackers seeking change or profit within the vast city that rises from the jungles of Ecuador to the towering space elevator above, or as Corps, advancing their agendas towards technological breakthrough and societal control.

System Update 2021 is an expansion of Netrunner cards featuring selected reprints from the game's history. It is not a standalone product, but adds to System Gateway or complements a wider Netrunner collection.
